

**Division of Chemical Physics**  
**2013 March Meeting Focus Sessions**  
Program Chair Jim Skinner (Univ. of Wisconsin)

***Physics of glasses and viscous liquids***

Organizers: Patrick Charbonneau (Duke University)  
Mark Ediger (University of Wisconsin)

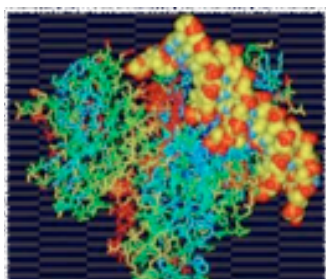

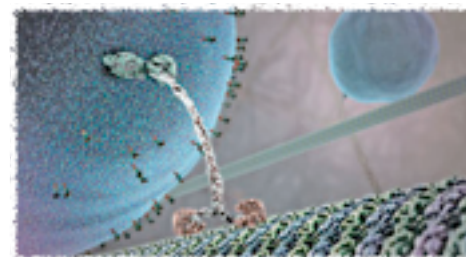

***Supercooled and nanoconfined water***

Organizers: Valeria Molinero (University of Utah)  
Anders Nilsson (SLAC)

***Motor dynamics: From single molecules to cells***

Organizers: Sean Sun (Johns Hopkins University)  
Zev Bryant (Stanford University)

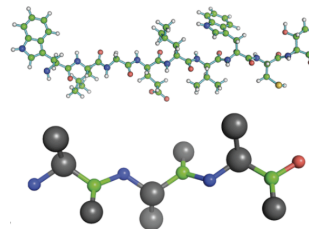

***Protein misfolding and aggregation***

Organizers: Elsa Yan (Yale University)  
Joan-Emma Shea (UCSB)

***Multiscale modeling: Coarse-graining in space and time***

Organizers: William Noid (Pennsylvania State University)  
Garyk Papoian (University of Maryland)

March 18 - 22, 2013, Baltimore, MD. Abstract Deadline: November 9, 2012

APS Division of Chemical Physics New Investigator Travel Awards available to  
APS DCP member students and postdocs who present at DCP symposia!

For more information visit the DCP website, <http://www.aps.org/units/dcp/>
