

*It is not too early to start planning...
...for the March Meeting - Feb 26-Mar 3, 2012*

Division of Chemical Physics Symposia: Program Chair D. G. Truhlar

Chemical Physics for New Energy

Organizers: Bruce Garrett, EMSL, Pacific Northwest National Laboratory
Anders Nilsson, SLAC, Stanford University

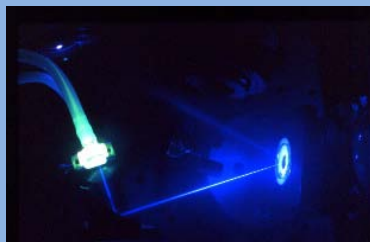

Density Functional Theory for Chemical Physics

Organizers: Kieron Burke, Chemistry, University of California, Irvine
Neepa Maitra, Physics and Astronomy, Hunter College, CUNY

Chemical Physics of the Environment

Organizers: Donald Baer, EMSL, Pacific Northwest National Laboratory
J. Ilja Siepmann, Chemistry, Chemical Engineering, University of Minnesota

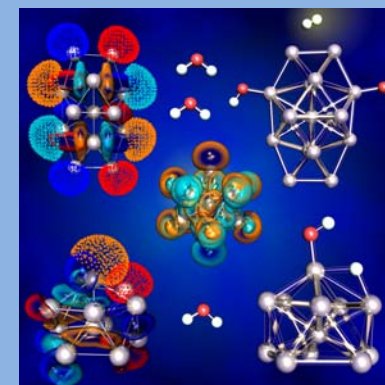

***Impact of Ultrafast Lasers in Chemical Physics:
Advances in Nonlinear Spectroscopies, Light Sources, and Applications***

Organizers: Amber Krummel, Chemistry, Colorado State University
Nancy Levinger, Chemistry, Colorado State University

Chemical Physics of Clusters, Nanoparticles, and Nanoscale Materials

Organizers: Shiv Khanna, Physics, Virginia Commonwealth University
Gabor Somorjai, Chemistry, University of California, Berkeley

Abstracts due November 10, 2011 – See you in Boston!
