

# APS March Meeting

March 15-19, 2010

Portland, OR

## Division of Chemical Physics

### Focus Sessions:

#### **Attosecond Science and Strong Field Chemical Physics**

*D. M. Neumark and R. Santra*

#### **New Frontiers in Electronic Structure Theory**

*C. D. Sherrill and A. D. Becke*

#### **Chemical Control of the Properties of Complex Oxides**

*P. Woodward and R. Seshadri*

#### **Confined and Biological Water**

*G. Hummer*

#### **New Trends in Spectroscopy**

*G. E. Hall and D. L. Osborn*

#### **Single Molecule Biophysics and Chemical Physics**

*D. Rueda*

#### **Production and Application of Cold Molecules**

*D. Chandler and J. M. Hutson*

#### **Charge Transport in Nanostructures**

*Z. L. Wang*

**Abstract Deadline November 20, 2009**

<http://www.aps.org/meetings/march/index.cfm>

**Students: Free 1-Year Trial Membership in APS and DCP**

<http://www.aps.org/membership/student.cfm>
